Re: Homeschool Education Portfolio

Global Student Network's (GSN) online homeschool curriculum is designed to supplement learning for alternative education students. Schools throughout the U.S. can easily evaluate the curriculum, its delivery, and student learning in many ways, and award credits towards high school graduation or college entrance.

Students presenting their Homeschool Education Portfolio which indicates completion of GSN's Online Courses are supervised by their parents in their education. GSN's online learning management system provides multiple supportive tools for parents to ensure their student receives an appropriate and equivalent education, including grading tools to evaluate academic competency in each course.

GSN's Virtual Curriculum was developed by a leading U.S. Public School district. Each course is deeply rooted in the National Content Standards in all core subject areas. It is currently being used in over 250 school districts nationwide. Full descriptions of each course's standards and indicators can be found at: www.globalstudentnetwork.com/standards. The password is *Global*.

Each semester long course has 18 lessons, each year long course has 36 lessons. Each year long course is designed for 144 hours of seat time for completion. Each lesson requires students to read and demonstrate the ability to analyze, think and articulate thoughts. The curriculum incorporates Blooms Taxonomy. GSN's Homeschool curriculum is academically and grade-level equivalent to the subjects taught in the majority of U.S. Public Schools.

Should the school district request, and upon parental authorization, GSN can provide online access to the student's curriculum, on-line textbooks, and learning material in a read-only portal.

The Curriculum is designed to teach required subjects for graduation and is tailored to fit any student's learning style, interests and needs. All courses are designed to develop communication skills independent thinking skills, and goal setting. Curriculum is presented through an interdisciplinary view.

Please feel free to call or e-mail me for more information regarding Global Student Network's Virtual Curriculum

Sincerely,

Don Posson
