Content

Topic Tools

Designed as an ideal tool for topic exploration and reinforcement, Topic Tools are open-ended, teacher-led tools perfect for the interactive whiteboard.

Tests

Help assess learning with math, language arts, and science tests, perfect for assessing student performance and evaluating progress.

Activities

Bright and colorful, our large bank of activities engage and inspire, providing targeted practice to reinforce concepts for group or individual learning.

Learn Screens

These animated video tutorials can be launched by teachers to introduce a new objective or offer an in-depth review for individual learners.

PlayLive

Reward learning in a fun, competitive environment. Here, students can challenge each other in real-time math and spelling games.

ThinkIts

Open-ended questions, known as ThinkIts, encourage higher-order thinking and classroom discussion. These challenging tasks can be used as morning warm-ups, extension activities, or exit tickets.
